

**Pennsylvania
Lumber
Museum**

The Pennsylvania Lumber Museum Associates (PALMA) was incorporated in the spring of 1973. Since then, this volunteer group with over 300 members has been promoting and supporting museum programs, projects, events and exhibits.

In 1975 PALMA sponsored the original Bark Peelers' festival, which has become a major two-day event – now in its 41th year. Other Associate projects have included:

- Construction of two log cars
- Restoration of a Barnhart log loader
- Sawmill demonstrations
- Educational workshops
- Relocation and preservation of a Chestnut Log Cabin built by CCC's in 1936 and placement of a CCC statue with landscaping
- Acquisition and restoration projects including a 1945 Brookville Tannery Switch Engine and 1917 Model T Ford Runabout
- Operation and management of the Foreman's Room Store located in the Visitor's Center
- Construction of a Birch Still

The Lumber Museum Associates have pledged \$ 50,000 to the Visitors Center expansion.

Membership in the Lumber Museum Associates is open to the public. A current membership card provides free admission to the museum and the events; 10% discount on purchases in the Foreman's Room Store; receipt of the newsletter – *Wood Chips*; and an invitation to the annual meeting.

For additional payment of \$ 21.00 – single, family and patron members may join the "Pennsylvania Heritage Foundation". This membership includes, among its benefits, a subscription to Pennsylvania Heritage magazine. This opportunity is also included in the PALMA supporting, benefactor and corporate membership categories.
